

## MedSpring Third Inter-institutional meeting

27 April 2016

IAMB, Bari - Italy

### Rationale

The Work Package 6 of MED-SPRING project, financed under the 7FP, is aimed at enhancing institutional and financial synergies for regional co-operation in Research and Innovation. In this frame a survey on initiatives and instruments to foster innovative mobility schemes has been carried out with the main aim to agree and define new mobility patterns that can have a socio-economic impact on Euro-Mediterranean region, while increasing science diplomacy.

In line with the results of the above mentioned survey and previous meetings organized within the WP 6, the third inter-institutional meeting is specifically aimed to put Human Capacity Building and Innovative Mobility Schemes at the heart of policies and actions for long-lasting cooperation.

### Agenda
